

## **LETTER OF RECOMMENDATION**

15 October 2020

### **To Whom-so-ever It may concern**

I am pleased to write a letter of recommendation for Saif Ahmed, an undergrad student at our university. I have known Saif for more than a year by being his teacher, Lab Instructor for DBMS and faculty guide for Mini Project. He is very professional and competent and doesn't hesitate to help his peers. He is very interested in learning new concepts.

I know from discussions with my colleagues and students in the Computer Science dept, that we all think Saif is a very capable student. He will be a dedicated student and a competent professional. I will highly recommend him with confidence that he will be a positive addition into your Institute. In case any clarification is needed, please feel free to contact me.

Yours Sincerely,

Prof. Shruti Hegde  
Assistant Professor  
Department of CSE
