

LETTER OF RECOMMENDATION

13 October 2020

To Whom-so-ever It may concern

I would like to formally recommend Mr. Saif Ahmed for a master's program at your esteemed Institute. He has been my student for the past couple of semesters and I have taught him Real Time Systems and have been his guide and mentor for 4 semesters. He is definitely a fine student in terms of motivation, aptitude and efforts. The main reason for my recommendation is the fact that he prefers 'smart work' rather than 'hard work' and produces good results.

I find his approach towards studies, rather refreshing. I am sure that Saif's abilities and skills will fit well in a college/Institute setting and would be an excellent addition to your Institute. Feel free to contact me with any questions or concerns regarding my recommendation.

Yours Sincerely,

Dr. Rubini.P
Associate Professor
Department of CSE
